Seizures in Namibia A study of traditional health

It is believed that seizures can be contracted through food and drinks that were contaminated by magic powers. Other, less magical causes are also considered, such as infections, traumatic brain injury, and various psychological factors (Q19). All the THPs regard mass hysteria, where groups of people experience seizure like symptoms when exposed to a common stressor to be the work of evil spirits, demons, and witchcraft.

OK, here's an update on what I've found without the engine running and using the B&C LR3C troubleshooting checklist. Step one gave me zero ohms resistance from the battery (-) to LR3C pin 7 and the same from the battery (-) to the engine case.

AeroElectric Archive digest vol il The Matronics Homepage

Not sure I'd worry about it. The fat wires go onto studs that are larger and fine threaded. Cranking these puppies down without further "insurance" is common practice. Locktite on the automotive threaded b-lead nut is about the only place I'd consider the use of a magic elixir useful for fixture. It's more important that fat wires on studs not impart strong rotational moments under vibration. Note the techniques used to bundle wires in this photo.
